JULY 2010

## SPECIAL POINTS OF INTEREST:

- Powell and Associates is awarded contract for layout work for 5 new MoDOT projects on Route 71 in Vernon County. These projects consist of converting at-grade intersection to interchanges in and effort to upgrade Route 71 to Interstate standards. This upgrade will extend through Missouri, Arkansas and Louisiana as an extension of Interstate 49 from Kansas City, Missouri to Shreveport, Louisiana.

## MOVE TO OUR NEW FACILITY

We are happy to announce the move to our new facility. The new space, located at 901 NW Vesper Street is two blocks north of City Hall in downtown Blue Springs.

The property had been left vacant for the last two years and had suffered water damage due to neglect. A new roof was constructed in 2009 and the building was gutted. In March of this year the building was purchased and Lampen Engineering, Inc. was selected as the design team. The new space was designed to accommodate our continued growth.

Construction of phase 1 was completed in May and included a complete interior remodel. The second phase is scheduled

to begin in early 2011 and will include a fresh new exterior look, landscaping and parking lot improvements.

Powell and Associates' staff would like to thank: Lampen Engineering, Inc., BC Engineers, Patterson & Associates, Odessa Heating and Cooling, BMF Builders, LLC, McGrath Electric and Concordia Bank for all their Help.

## POWELL AND ASSOCIATES IS SELECTED FOR 3 YEAR GENERAL SERVICE AGREEMENT WITH THE MISSOURI DEPARTMENT OF TRANSPORTATION

Powell and Associates is proud to announce being recently selected by the Missouri Department of Transportation (MoDOT) for the Master Service Agreement for on-call land surveying services in District 4. This selection was based on our past project experience, and professional qualifications.

Over the next three years, Powell and Associates will provide general land surveying services in Jackson, Platte, Clay, Ray, Lafayette, Johnson, Henry and Cass counties.
