

SPECIAL POINTS OF INTEREST:

- Design work has begun on Phase 2 of the Kansas City Auto Auction. Once completed, this development will consist of approximately 65 acres of vehicle storage, a main auction building, detailing building and 5 additional commercial lots.

CERTIFIED FEDERAL SURVEYOR (CFEDS)

In an effort to expand our scope of services, Jeremy M. Powell, PLS has enrolled in the Certified Federal Surveyors training program (CFedS). The completion of this program will allow Powell and Associates to provide services for a wide range of federal projects.

The CFedS program is a voluntary program to train and certify professional licensed surveyors to perform boundary surveys and related cadastral services to basic federal surveying standards. The primary purpose of the CFedS Program is to provide American Indian and Alaska Native landowners, tribes, Bureau of Indian Affairs (BIA) and federal agencies administering land adjoining Indian lands with a roster of

qualified surveyors, specifically trained to provide boundary services in Indian country. The initial goal of the CFedS Program is to assure that all cadastral services executed in Indian country are performed in accordance with the Bureau of Land Management (BLM) standards

ISAC W. SHELTON, LSIT JOINS POWELL AND ASSOCIATES

Isac Shelton, LSIT has joined Powell and Associates as a Survey Crew Leader. Isac comes to Powell and Associates with 10 years of experience in the field of land surveying. His surveying background encompasses all aspects of land surveying, and specifically includes route surveys, 3D laser scan-

ning and construction layout. This experience and technical knowledge will allow him to quickly integrate himself with our team.

Responsibilities as Survey Crew Leader will include project management and managing field operations of survey crews. Isac

will also work closely with contractors and clients to insure that projects are completed quickly and with a high degree of accuracy.
