

# V. Alan Heady, PLS

Project Manager

## BIO

After graduating from college, Alan began his land surveying career as a rod-man and chainman on a survey crew with a well-established engineering firm in Columbia, Missouri. He quickly worked his way up to instrument-man and then party chief. When he wasn't in the field he was gaining valuable office experience as a draftsman.

After short stints with some smaller engineering firms, Alan eventually took a position with one of the oldest and well-respected land surveying firms in Missouri. After several years of field and office work performing boundary surveys, engineering surveys, topographic surveys and construction surveying, he moved into a management position. His responsibilities included the supervision of surveying activities, client liaison in regard to surveying activities, review, check seal and deliver completed surveys.

As Project Manager with Powell and Associates, Alan manages day-to-day operational aspect of a project and scope with the goal being to ensure that a project is completed on time, within budget, and according to the requirements.

## PROJECT EXPERIENCE

### CDM Federal Programs

Prepared deliverables that meets Corps of Engineers Standards based on detailed topographic surveys of sheet piling and floodwall along the Missouri River at the BPU Plant site and the Jersey Creek drainage structure site in Kansas City, Kansas.

### City of Independence, Missouri Water Department

Property boundary calculations based on Jackson County Records research and field work to recover and/or restore monumentation relative to road right-of-way for several water line extensions.

### Whiteman Air Force Base Communications Building

Managed construction surveying activities for new communications building including calculations for building, parking lot and utility layout.
