

# William R. Stueven

Crew Leader

## BIO

Bill's love for the outdoors, coupled with his desire for a challenging career, drew him toward the field of surveying. He began his surveying career in 1997 as a rod-man with a small surveying firm that specialized in residential surveying. There he learned the fundamentals of surveying and drafting. Bill's strong work ethic, combined with his company loyalty, helped him to be quickly promoted to Crew Chief and began overseeing a field crew.

Twelve years in the surveying business has given Bill the opportunity to be involved with many aspects of land surveying. His project experience includes boundary surveys, house layouts, topographic surveys, and high rise condominium plats.

As a crew leader with Powell and Associates, Bill manages the field work of his crew and works closely with contractors and clients to insure

## PROJECT EXPERIENCE

### Woodland Road – Johnson County, Kansas

Managed field operations for improvements to Woodland Road and K-10 consisting of new curbs, storm sewer, sidewalks and utilities using GPS and robotic total station.
